

REQUEST FOR ACTION

To	The Collection Board of Directors				
Subject	Parking decal standardization				
Preparer	Darold Wong				
Date	9/2/2018	For Board	x	Action	Info

EXECUTIVE SUMMARY

All car vehicles parking in the parking garage do not have a decal displayed.

I am observing that cars are parking in other people's stalls.

Many vehicles are waiting at the gate for someone to open the gate.

We need to require a strict rule on displaying a parking decal.

RECOMMENDATION

Proposed Rule:

- All vehicles parking in the garage must display a parking decal. It must be displayed on the front driver side windshield in the lower left corner.
- The decal shall not be altered in any way.
- The car registration must match the vehicle and parking stall or stalls.

Warning letters and fines must be issued to all violators.

~~Vehicle violations should follow the vehicle License plate numbers and not be reset yearly.~~

RATIONALE

The implementation of the strict policy will:

- Eliminate residence complaints of vehicles parking in other peoples stall.
- Reduce the need for the RS's to respond to these calls.
- Increase safety by stopping vehicles unauthorized to park in garage.
- Require residence to follow a standard rule on parking decals.
