EXECUTIVE SUMMARY

- Request to add supply of gym antibacterial wipes (ie. Wipex); recommend to install wall-mounted, downward pull dispenser for wipes in gym. Gym wipes will help sanitize the equipment by lowering the risk of infection and cross contamination.

- Request to add small trash bin near aforementioned wipe dispenser.

- Request to add policy for users to bring towel as requirement to use the gym.

- Request to mount HDTV to wall; recommend to connect to wifi network for streaming content rather than using wired cable connection. I have an extra 42" TCL HDTV if the association wants to use it.

- Request to add dip station/tower to gym
